DISCLAIMER

All efforts have been made to verify and collate information about Institutes included in the Directory. Information has been collected from various sources, namely directories, newsletters, Internet, telephonic verification, letterheads, etc.

However, NIPCCD does not take any responsibility for any error that may inadvertently have crept in.

The telephone numbers, e-mail IDs, focus areas of research, etc. change from time to time, hence NIPCCD may not be held liable for any discrepancy arising out of change or otherwise, included in the Directory.

FOREWORD

Education is an essential component of life. It is a self-enlightening process that brings about an awareness of the world around us. It develops our perspective of gaining knowledge, which opens up unlimited opportunities, improving the academic aspects of life.

Since we live in an information age that is mostly marked by industrial labour and professional careers in various fields, education is today's tool of defense when it comes to career survival and successes.

The role of education in facilitating social and economic progress is well recognized. It opens up opportunities leading to both professionals and group entitlements.

Education, in its broadest sense of development of professionals, is the most crucial input for empowering people with skills and knowledge and giving them access to productive employment in future.

Therefore ensuring access to quality education for all in particular for poor and rural population is central to the economic and social development of the country.

It is hoped that the Directory on Education being brought out by NIPCCD will serve as a ready reckoner for researchers, students, teachers, professionals and other readers.
